

Engenharia de Dados com Hadoop e Spark

Bem-vindo(a)

A Data Science Academy (DSA) é um portal de ensino online especializado em Big Data, Machine Learning, Inteligência Artificial, Desenvolvimento de Chatbots, Blockchain e tecnologias relacionadas.

Nosso objetivo é fornecer aos alunos conteúdo de alto nível por meio do uso de computador, tablet ou smartphone, em qualquer lugar, a qualquer hora, 100% online e 100% em português.

No Brasil e no Mundo

Engenharia de Dados com Hadoop e Spark

Capítulos 2, 3 e 4 Armazenamento de Dados Capítulos 5, 6 e 7 Machine Learning Capítulo

8

Hadoop e Spark Capítulo 9 Conceitos e definições de Big Data, Hadoop, Ecossistema Hadoop e Spark

O que você vai aprender neste curso?

Como planejar, instalar e configurar um cluster Hadoop

Como planejar, instalar e configurar o Ecossistema Hadoop (Hive, Hbase, Zookeeper, Flume, Oozie, Ambari, Sqoop, Spark e Storm)

Configuração e utilização do HDFS e configurações avançadas do cluster Hadoop

Administração e Manutenção do Hadoop e Spark

Machine Learning com Apache Mahout

O que você vai aprender neste curso?

Importação/exportação de dados e ETL com Sqoop

Principais distribuições Hadoop do mercado:

Cloudera e Hortonworks

Infraestrutura de Big Data

Análise de Big Data

Engenharie Data Science Academy ericepti@gmail.com 5b1700f85e4cde813d8b459Spark

E quais são os prérequisitos?

São muitos os benefícios em realizar este curso:

Big Data é uma das áreas que mais crescem atualmente. Há um déficit de profissionais no mercado e estima-se que até 2020 o mercado precisará de mais de 200 mil profissionais habilitados em Big Data.

São muitos os benefícios em realizar este curso:

Hadoop é a tecnologia base da infraestrutura de Big Data, que está revolucionando o mundo como o conhecemos. Ele permite a análise de grandes volumes de dados para tomada de decisão.

São muitos os benefícios em realizar este curso:

Conhecimento de Hadoop é um dos skills mais procurados por recrutadores de profissionais de Big Data.

São muitos os benefícios em realizar este curso:

O Hadoop permite a mudança de paradigma de bancos de dados tradicionais, para um framework de dados versátil, adaptável e veloz.

Estrutura do Curso

Para tornar sua experiência de aprendizagem ainda mais completa, você terá quizzes e labs ao longo de todos os capítulos.

Estrutura do Curso

Você também terá acesso e poderá fazer o download dos e-books com todo o passo-a-passo de cada lab realizado ao longo do curso.

Estrutura do Curso

Fique tranquilo se você não possui experiência em sistema operacional Linux. Tudo será explicado passo a passo.

Mini-Projetos

Avaliação Final

Engenharie Data Science Academy ericepti@gmail.com 5b1700f85e4cde813d8b459 Spark

Como Obter Sucesso Neste Curso? Comunique-se Crie seu ambiente de testes 4 a 6 horas de dedicação por semana

O que é o Apache Hadoop?

Um dos grandes desafios computacionais da atualidade é armazenar, manipular e analisar, de forma inteligente, a grande quantidade de dados existente.

Sistemas corporativos, sistemas Web, mídias sociais, entre outros, produzem juntos um volume impressionante de dados, alcançando a dimensão de petabytes diários.
